## ABOUT THE YOUNG PROFESSIONALS COMMITTEE

The Young Professionals Committee consists of 20 Boston professionals under the age of 40 who work in a variety of industries including finance, health care, law, marketing/sales and consulting . These passionate volunteers dedicate their time and resources to support The Genesis Foundation for Children and it's mission. They act as advocates for children with rare diseases and genetic disorders, and utilize their networking and leadership skills to raise awareness and money for the foundation. Since the committee's inception in 2017, they have raised over \$60,000 for The Genesis Foundation through fundraising events, peer-to-peer campaigns, and corporate partnerships.

## ABOUT THE GENESIS FOUNDATION FOR CHILDREN

Families affected by a rare disease or genetic disorder diagnosis often feel lost or frustrated, while also facing financial challenges that prevent their child from receiving the diagnosis, treatment, and comprehensive care they need and deserve. For 43 years, The Genesis Foundation has bridged the financial and care gap for these children and families, from diagnosis through adulthood. By funding The Feingold Service at Mass General for Children, as well as various therapeutic programs and assistive technology, The Genesis Foundation helps children born with a rare disease or genetic disorder achieve their full potential.
